Medieval political philosophy is the part of medieval philosophy that is concerned with political matters. Philosophical writing about politics during the middle ages (as during the early modern period) was often an attempt to influence public events, and the history of the subject therefore involves reference to those events.

The philosophy of Immanuel Kant (1724–1804) can be divided into two major branches. His theoretical philosophy, which includes metaphysics, is based on the rational understanding of the concept of nature. The second, his practical philosophy, comprising ethics and political philosophy, is based on the concept of freedom.
