The Trail Guide to Learning series combines ideas from both Ruth Beechick's and Charlotte Mason's approaches to education which overlap and complement each other very well. The series uses a unit study approach built around geography as taught within the context of historical events. Science, art, and language arts are also covered, with language arts receiving a great deal of attention in a ...

So students learn geography in context, an approach that I think works better than teaching geography on its own. The geography is supported by map work activities in the supplemental Hands-On Maps book for each course. World geography is taught in the first two volumes and U.S. geography in the second two.
