Monitoring of subordinate performance can be done in a variety of ways (see Yukl, 1998), and it can facilitate transformational leadership as well as transactional leadership. The theoretical rationale for including active management by exception as part of transactional leadership is not clearly explained and is not evident.

Ethical leadership is leadership that is directed by respect for ethical beliefs and values and for the dignity and rights of others. It is thus related to concepts such as trust, honesty, consideration, charisma, and fairness.. Ethics is concerned with the kinds of values and morals an individual or a society finds desirable or appropriate.
