The Intel UHD Graphics is a graphics processor integrated into select Intel Core processors for laptops. More precisely, in the 10th Gen Intel Core U-series processors, such as the i3-10110U, i5-10210U, and i7-10510U.The UHD isn't designed for hard core gaming. It rather provides basic performance for managing the notebooks' screens and some light gaming.

Intel UHD Graphics of 10th Gen Intel Core U Processors ...

Tip: It is possible to select among different post processors or customize post processors to define the way programs are generated (for example, to support a gripper or external sensors). Note: The default post processor (called Universal Robots) generates a SCRIPT program and a URP program executing the program as a script file.

Universal Robots - RoboDK Documentation

RoboDK supports all KUKA robot controllers since KRC2, including KUKA KRC3 and KRC4 controllers. This documentation is based on a KRC4 controller. The KRC4 robot controller runs the Microsoft Embedded Windows 7 operating system. Previous controllers, such as KRC2, run Windows 95. The robot teach pendant shows an "HMI" which is a program that KUKA developed to run on Windows and it is the …

KUKA robots - RoboDK Documentation

I realize this is an old post, but if you google search for esprit this comes up. Esprit is leagues behind Mastercam in a lot of ways. Even from X7. Esprit cannot do HEM (profitmilling in esprit vs dynamic milling in mastercam) for anything other than a pocketing operation. Fusion 360 does this for a tiny, tiny fraction of the cost.
