Agile organizations are composed of teams of teams that operate in rapid learning and decision-making cycles. The Agile way of working is not compatible with static and siloed organizations that allocate decision rights along reporting lines. Classical IT governance body members are not close enough to the field.

Agile ways of working are now proving so successful that nearly all tech is developed this way, and whole organisations, including non-tech businesses, want to ' go Agile ' . No more ' big bang ' . No more ' one-size-fits-all ' . Moving away from a waterfall approach to delivering value incrementally is ground-breaking for HR.

"Thinking aloud may be the single most valuable usability engineering method." I wrote this in my 1993 book, Usability Engineering, and I stand by this assessment today. The fact that the same method has remained #1 for 19 years is a good indication of the longevity of usability methods.. Usability guidelines live for a long time; usability methods live even longer.
