Aims, Aesthetics and Ideals. The Arts and Crafts movement was a social/artistic movement of modern art, which began in Britain in the second half of the nineteenth century and continued into the twentieth, spreading to continental Europe and the USA. Its adherents - artists, architects, designers, writers, craftsmen and philanthropists - were united by a common set of aesthetics, that sought to ...

By the nineteenth century an inconsistent set of doctrines was widely adopted. Strawson's 1952 attempt to rehabilitate the Square does not apply to the traditional doctrine; it does salvage the nineteenth century version but at the cost of yielding inferences that lead from truth to falsity when strung together.
